

Artificial Intelligence – Staff Tool

AutoMarker

Teachers upload images of pupils' work alongside mark schemes and the system produces draft feedback and suggested marks.

The teacher reviews and is **accountable for every mark that reaches a pupil** – the AI does not make autonomous decisions about your child's grades. AI-generated grades are never used for summative reporting without manual verification.

- Faster, more detailed written feedback for every pupil
- Teacher always has final authority on all marks and comments
- Images processed transiently and never used for AI training

Ofsted Report 2024
