

## Design & Technology

### Key Stage 3

In Key Stage 3 students study the following topics as standalone modules or combined within a project:

- Graphics - concentrating on accuracy, measuring and presentation as well as a variety of drawing techniques;
- Materials - concentrating on working with a variety of materials and equipment with the use templates and jigs;
- Electronics/Engineering - concentrating on a basic introduction to components and prototyping as well as combining materials to make a product;
- Textiles - concentrating on basic techniques and fastenings, surface decoration and the safe use of the sewing machine;
- Food - concentrating on preparing healthy meals, and following recipes with safe working practices.
