SKILLS, LINKS AND PROGRESSION	<p>German combines well with a whole host of other subjects. It can be of particular use to students who are studying science and maths, English, history, business, geography and arts/humanities subjects; in other words, it goes well with all subjects, either as a specialism or as a 'second string to your bow'. Many degree subjects now offer the opportunity to spend time abroad, thus gaining a qualification recognised in two countries. These degree subjects include law, business, and economics, as well as any more.</p> <p>Alongside the course, we strongly recommend attendance at the after school German Literature Group, which helps you to gain a broader cultural awareness, aside from the evident linguistic benefits!</p>
