

## Geography

### Advice for Parents

Taking an active interest in local, national and global news is key to developing an interest in geography and the dynamic world we live in.

Talking as a family about current issues as well as places visited can create inspiring conversations and an inquisitive attitude.

Publications such as 'The Week Junior' for Key Stage 3 and Journals such as The Geography Association 'Geography 11-14' for Key Stage 4 and 5 provide inspiring reports and stories.

Wider reading is provided, such as news articles and blogs via Google Classroom to support learning.

There is also a wealth of apps and documentaries available that can be used in day to day activities as well as family trips and holidays.

Examples include - Fatmap, Digimaps and GridPoint UK.
